POCIS Conference for Middle and High School Students

Saturday, March 27, 2010 hosted by University High School - San Francisco, CA

POCIS is an organization which supports teachers, administrators, parents, and students who believe that diversity and multiculturalism are endemic to quality education for all.

The diverse cultures, languages, knowledge, and insights of people of color contribute to creating inclusive and affirming institutions. **POCIS** is a forum that promotes dialogue among Asian/Asian American, Latino/Hispanic, African American, Native American, Middle Eastern, Pacific Islander, European American and multiracial colleagues who support this mission.

POCIS supports increasing diversity in independent schools at the student, faculty, administration, and board level. We also encourage schools to contract with women and people of color for goods and services. **POCIS** supports school climates in which the academic and social well-being of all students and adults of color is assured.

Please feel free to pass on this flyer.
Stay tuned for more events throughout the year!
